Our Daily Bread

Transforming Worship

Sing the praises of the Lord, you his faithful people.
Psalm 30:4 READ Psalm 30

Susy wept as she sat outside the hospital's intensive care unit—waves of paralyzing fear sweeping over her. The tiny lungs of her two-month-old baby were filled with fluid, and doctors said they were doing their best to save him but gave no guarantees. At that moment she says she “felt the sweet, gentle nudging of the Holy Spirit reminding [her] to worship God.” With no strength to sing, she played praise songs on her phone over the next three days in the hospital. As she worshiped, she found hope and peace. Today, she says the experience taught her that “worship doesn’t change God, but it definitely changes you.”

Facing desperate circumstances, David called out to God in prayer and praise (Psalm 30:8). One commentator notes that the psalmist prayed “for grace issued in praise and transformation.” God turned David’s “wailing into dancing” and he declared that he would “praise [God] forever”—in all circumstances (vv. 11-12). While it can be hard to praise God during painful times, it can lead to transformation. From despair to hope, from fear to faith. And He can use our example to encourage and transform others (vv. 4-5).

Susy’s baby boy was restored to health by God’s grace. While not all challenges in life will end as we hope they will, He can transform us and fill us with renewed joy (v. 11) as we worship Him even in our pain. By Tom Felten

How might worshiping God as you endure pain affect you? How might your example affect others?

Dear God, please transform me even as I worship You in my pain and difficulties.

Have a Great Memorial Day Weekend • Closed Memorial Day

DEAR PAW'S CORNER:
At my cat's last veterinary visit, it was recommended that she wear a flea collar or get a monthly flea treatment. "Belle" is a completely indoor cat and has never had fleas. Why do I need to prevent her from getting them? - Carla G., Gulf Shores, Alabama

DEAR CARLA: While it seems totally reasonable to not treat Belle for fleas, there is always a risk of getting them. This is the same logic behind routine vaccinations - it's unlikely that

an indoor cat will be exposed to rabies, but there is always a chance.

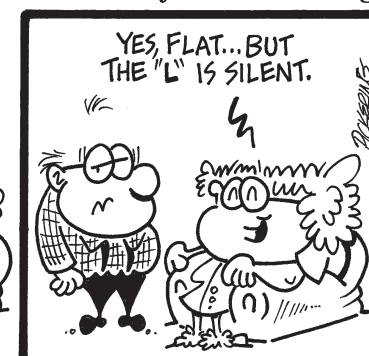

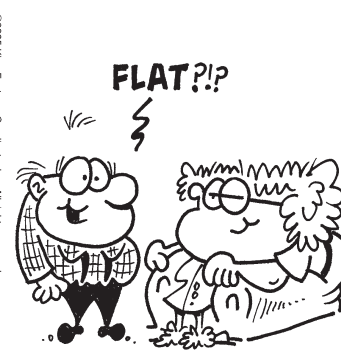

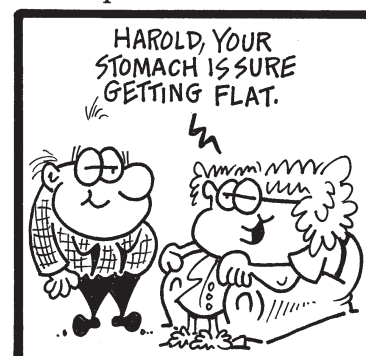

I'll give you a personal example. Last fall, I took care of a friend's dog for a few weeks while they were away dealing with a family emergency. On the first day, I noticed that "Kerry" was chewing on his tail and his hair was almost gone at the base of his tail. I knew right away that he had fleas, and a visual check confirmed it. All of my pets are treated for fleas, even though my cat stays indoors. With my friend's permission, I treated Kerry with a topical flea treatment and kept him separated from the other pets for a few days until no live fleas could be found in his fur. I also monitored all my pets for fleas during his visit.

I hadn't planned on Kerry arriving with fleas, but his owner had forgotten to give him his monthly flea treatment for a couple of months. This unplanned situation could have been a real problem for me and my pets.

There's an old saying that "an ounce of prevention is worth a pound of cure," and that is certainly the case with fleas, which can be hard to eliminate from your home once they get a foothold. There are many options today - not just collars - to prevent fleas from getting on your cat. Talk to your vet about the treatment they recommend for Belle.

PROPER RECYCLING COMPOSTING

A Guide to doing it right in Lawrence
and Mercer Counties

What is Composting?

Composting is the human intervention in the natural decay process. In nature, this process can take up to two years. We can shorten this process to six to seven weeks by adjusting and maintaining the moisture, oxygen, and Nitrogen content of the organic materials that we are composting.

Why is Composting Important?

Food and yard waste make up about 30% of our waste stream. Composting is a great way to reduce our waste, save landfill space, sequester carbon, and reduce greenhouse gas emissions. Finished compost is an excellent soil amendment and a great way to improve your soil. Residents and businesses in municipalities of more than 5,000 people are required by State law to separate leaf waste from other waste. These municipalities must also provide a collection program for the material.

Do I need a Compost Bin?

You can compost with or without a bin. People who want to use a bin can build their own or purchase a commercially available bin. There are plans available online to build a variety of bins.

How do I Compost?

1. First, pick a location for your composite pile. It should be convenient for you, partly shaded, dry, and flat. Items to consider when picking a location include your neighbors, water supply, and end use of the finish compost.
2. Next add your materials. The ideal ratio is three parts brown materials to one part green material. Green material is higher Nitrogen which feeds the microbes that drive the compost process. See back side for common brown and green materials. You may substitute a small amount of a Nitrogen fertilizer if you don't have green material available. Conversely, you can use sawdust or shredded paper/cardboard if you are short on brown materials.
3. Make sure your compost pile has sufficient moisture. It should feel slightly moist. If it is too dry, add water, and if it is too wet, add material.
4. Turn (mix) the pile every seven days. Check the moisture content after turning.
5. You should have compost in six to seven weeks if you followed the 3:1 recipe, turned it regularly, and maintained the proper moisture content.

the PA Department of Environmental Protection

Recycling/Solid Waste
Department

(724) 658-6925

WHAT CAN I USE COMPOST FOR?

Finished compost is a great soil amendment that should be mixed in with the top 6 inches of soil. Compost is also a suitable mulch. Compost can be used as a potting mix - more than a quarter to a third of the total potting mix should be compost.

What should I avoid in my Compost Bin?

- Meat, Poultry, & Fish
- Diseased Plants
- Weeds w/Seeds
- Coal Ash
- Dairy Products
- Pet Feces
- Branches
- Bones
- Cooking Oil/Oily Foods
- Invasive Weeds
- Treated Sawdust

There are many sources of information available that cover all aspects of backyard composting. Be sure to visit our website to download our “Keep it at Home: Compost” booklet for more detailed information.

Common Brown Material

- Leaves
- Bark
- Straw
- Pine Needles
- Twigs
- Newsprint
- Cardboard
- Wood Chips
- Sawdust

Common Green Material

- Grass Clippings
- Vegetable Scraps
- Fruit Rinds/Peels
- Manure
- Coffee Grounds
- Pumpkin Shells
- Seaweed/Pond Algae

Outdoor Opportunities

By COL (Ret.) Grey D. Berrier II

**Confirming the Theory,
You Can Definitely Have Outdoor Fun in Erie!**

While it ranks 33rd in total area, Pennsylvania is still a relatively large state. I'm pretty sure I'm in a very small minority, when I say I've spent time in all 67-counties in the Commonwealth at one point or another. There are probably significant numbers of PA residents in our area who have never visited Wayne County in the extreme NE corner or Delaware County in the extreme SE corner. Similarly, it was no surprise when a large portion of attendees at our recent Pennsylvania Outdoor Writers Association (POWA) conference in Erie, professional outdoor communicators who hail from all across our great state, had never been to Erie County before in the extreme NW corner. We are blessed to live only 90-minutes from Erie and many local residents regularly visit Erie to pursue a myriad of diverse outdoor passions.

This year's POWA conference was just held May 15-18, 2025 at the Ambassador Conference Center at the intersection of I-90 and Peach Street in Erie. It's been said, "The friends you surround yourself with have a significant impact on your life, shaping your behaviors, attitudes, and well-being." That is why I choose to be an active POWA member, surrounding myself with more experienced outdoor writers who I am mentored by and now after 12-years of membership, I have the opportunity to help mentor newer members who have joined our ranks. I tremendously look forward to annually gathering with the POWA quill (a quill being the term for a group of writers, similar to a parade of elephants or a gaze of raccoons).

We initially assembled on Thursday evening at the Colony Pub & Grille for dinner after checking into our hotel. This was a time to joyfully renew good friendships in person, after primarily interacting via monthly Google Meet video conferences for the past 12-months. I had the walleye platter, since that seemed appropriate when dining within ½-mile of Presque Isle Bay. Friday morning was when the conference really kicked off with a variety of activities to choose from. Three members, along with the one member's college-age son, went out walleye fishing aboard the "Heartbeat," captained by "Dr. Bob" Ferraro. The retired heart surgeon capably put them into several nice walleyes in the 24 to 26-inch range, so each fisherman earned a great story and an awesome photo opportunity holding their wall-

eye. Most of our attendees, who had never been to Erie before, opted for the informative visit to the Tom Ridge Environmental Center (across from Waldameer Park) and the subsequent extensive tour of Presque Isle State Park. (I did learn during our conference that Presque Isle in French means "almost an island.")

A few of our avid birders explored Presque Isle on their own and were able to add a few rarer warblers and shorebirds to their avian Life lists. One senior member opted to take a guided turkey hunt. He had a great time and obtained a memorable story, in spite of missing a gobbler when a shot presented itself. (He was duly chided by other senior turkey hunters.) I, along with two other members and the one member's wife, opted for a fascinating behind-the-scenes tour of the PA Fish & Boat Commission's innovative Mussel-rearing facility at the former Union City fish hatchery. I will share in-depth details in next week's piece, since I learned fascinating new things about our native species of Mussels, some listed as federally or state endangered species, which inhabit our many PA waterways, including the local Shenango River.

Friday evening's BBQ at the unique Asbury Woods Nature Center was sponsored by the PA Game Commission. It was my first time at Asbury Woods and I will be going back to explore their miles of hiking trails and read the informative displays. The PGC's Northwest Regional Supervisor, Jesse Bish, provided an update on several PGC matters, the highlight being they have finally started the project to reconstruct the Wildlife Learning Center at Pymatuning. (The former often-visited facility built in 1937 was razed in 2015.) Project completion will be in late 2026 and the Grand Opening will be in early 2027.

Saturday brought craft improvement sessions on: (1) Using natural history facts and descriptions to develop scenes; (2) Being concise without sacrificing narrative and voice; and (3) Tips for using cell phones to shoot story photographs. Additionally, there were newsmaker sessions with: (1) The S.O.N.S. of Lake Erie fishing/conservation club; (2) BoatUS/TowBoatUS; (3) VisitErie; and (4) PA Fish & Boat Commission Executive Director, Tim Schaeffer. Saturday concluded with our Awards Banquet, where the Winners and Runners-Up were recognized in 32-categories. As Awards Committee Chairman, special thanks to my many Judges who are reading this. I am humbled to report I was elected POWA President for a 2nd term. You can definitely have outdoor fun in Erie!

God Bless, Be Safe, and Great Outdoors!

Even Exchange by Donna Pettman

Each numbered row contains two clues and two 6-letter answers. The two answers differ from each other by only one letter, which has already been inserted. For example, if you exchange the A from MASTER for an I, you get MISTER. Do not change the order of the letters.

1. Make amends	__ T __ __ __	Solitary	__ L __ __ __
2. Narrow one's eyes	__ __ __ __ N __	Use a water pistol	__ __ __ __ R __
3. Cake maker	__ A __ __ __	Chopper dude	__ I __ __ __
4. Necklace ornament	L __ __ __ __	Spaceship	R __ __ __ __
5. Very pale	__ __ H __ __	Colorado tree	__ __ P __ __
6. Interfere	__ E __ __ __	Center	__ I __ __ __
7. Cook lightly	__ __ __ T __	Gravy	__ __ __ C __
8. Take it easy	__ __ __ __ X	Certain running race	__ __ __ __ Y
9. Shrink	__ __ W __ __	Blanket	__ __ V __ __
10. Fasten	__ __ __ __ H	Invade	__ __ __ __ K

Strange But True

by Lucie Winborne

• Thought for the Day: "Even if you are on the right track, you will get run over if you just sit there." – Will Rogers

• One percent of people are born with a 13th rib.
• Victorian floriography, the practice of assigning codes to flowers to send messages via bouquets and arrangements, associated basil with hatred! The curious link came from the ancient Greeks, who felt basil leaves resembled the opening jaws of a basilisk.

- To preserve the quality of the U.S. Constitution, on display in the National Archives Building in Washington, D.C., its protective cases contain argon gas and are kept at 67 Fahrenheit with a relative humidity of 40%.
- During the 1904 Summer Olympic Games, American athlete George Eyser won six medals in a single day, including three gold and two silver, in the vault, parallel bars and rope climbing competitions ... with a wooden prosthetic left leg.
- While digging up stones to build a house in 1885, Australian miner George Harrison found gold ore near Johannesburg, beginning the South African gold rush.
- Jimi Hendrix served as a para-trooper in the U.S. Army's elite 101st Airborne division, though an ankle injury allowed him to leave the service with a welcomed honorable discharge after one year of the three he'd signed up for. ©2025 King Features Synd., Inc.

Fun Fact

When compared side to side, Australia is wider than the moon: With an east to west diameter of about 4,000 kilometers, Australia bests the moon's approximately 3,400-kilometer diameter. That's plenty of room for kangaroos to jump!

Planning your garden size

Estimate your growing space and access to sunlight, and your time, energy and resources. If you have little time to spare and little space to garden, try one large pot set beside a sunny window as a **container garden** for plants. If you have outdoor space but don't want a large garden, choose a sunny area with enough space for one or more **raised garden beds** of plants. A large **in-ground garden** of plants can work if you have the space, the resources to prepare and maintain it and sunlight several hours a day.

Now Here's A Tip

by JoAnn Derson

• It's barbecue time, and here's a fun, festive idea for your next backyard shindig: For each guest, stuff a mason jar with a clean bandanna (for a napkin) and a set of silverware. Write the name on the jar with a silver paint pen made to stay on glassware. Cute, functional and a keepsake! Here's more to get your grilling season started. ©2025 King Features
